Owing to the increased demand for this medicine, and for the accommodation of his numerous patients, Dr. Jackson has been compelled to occupy a larger store. We wish him success in his new quarters; he is deserving of it. The Bitters Mixture is without doubt the greatest medicine extant for diseases of the Liver and Bowels: A stubborn case of Chronic Diarrhoza has come under our notice, wherein the patient had exhausted the Materia Medicas of the different schools of medicine with no apparent banefit. He was induced to use these bitters, and a few bottles of them have entirely cured him: Many uch cases we could refer to. We hope our readers will recollect this great restorative, should they be so unfortunitie as to require its use. Dr. Jackson possesses the original unpublished receipt of Dr. Hoofland, and he prepares this medicine with this care. Your condition cannot be more helpless than that of Mrs. Rowe.

This is to certify that I was taken with a pain in my sife and breast, attended with a distressing cough, and for the space of one year grew rapidly worse. Although I had in attendance three phy sicians, one of whom was considered very skillful, all of their efforts proved alike unavailing. At last one of the physicians came ir, and decided that I could not live more than one day longer! All of my friends believed that a few days at most would end my earthly career.

My brother at this crisis, hearing of the astonishing cures made by Dr. Rodgers' Liverwort and Tar, went to Chillicothe, distant thirty miles, to procure the above medicine; and, strange to tell, before I had used half a bottle my cough was entirely cured, and when I had used two bottles I was able to attend to my family vocations as usual. REMARKABLE CURE OF BRONCHITIS.

New York, Feb. 17, 1848,-Messrs Sands: Having suffered many years with a discuse of my throat, affecting the laryex, during which time I was treated by the most eminent physicians in Europe and the United States, without receiving any permanent benefit, but all the time my general health and strength declining, and the disease making fearful progress; caustic applications were used, and whatever else was thought most efficient for producing a cure; but I am confident the deplorable situation I was in, the laryngitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated nev life, had I not obtained relief through your invaluable Sarsaparilla. I must say, gentlemen, when I commenced using the Sarsaparilla, I did not place much confidence in its virtues; and this will not surprise you when I inform you that I had tried more than fifty different remedies during the pasfour years without any success; but after taking your Sarsaparilla a few weeks, I was obliged to yield at last to evidence. GENERAL DEBILITY,

A Derangement of the Nervous System. OT IN MERVOUS COMPLAINTS. Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the atrengthening, life-giving, vitalizing influence of Gulvanisms, as applied by this heautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former tiestith, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists, in the fact that they arrest and cure disease by out ward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks application. They alrengthen the whole system, equalize the circulation of the blood, promote the recretions, and never do the slightest injury under my circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which we a large number of ladies, who are peculiarly subject to New Ous Complaints, have been ENTIRELY AND PERMANENTLY CORED, ENTIRELY AND PERMANENTLY CURED, when all hope of relief had been given up, and every file else been tried in vain!

To illustrate the use of the GALVANEC BELT, appear the case of a person attitude with that bene of civilization, DYSPEPSIA, or any other Chronic or Neyvon Disorder, its ordinery cases, stimulants are taken, which by their action as the nerves and muscles of the stometh, afford temperary rails, but which leave the patient in a lower state, and with injurial faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, teas in the worse symptoms of an attack, and supply is the Belt mound the body, using the Magnetic Fluid as directed. The whore period the insensible perspiration will tet on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and, thence beak against the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most server cases of DYSPETSIA are PEKIMANENTLY CUIKED. A FEW DAY'S OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

DR. A. H. CHRII TR-Dear Sir: You wish to know of the what has been the . Built in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is a follows: Sidner, New Jersey, July 12, 1819.

what has been the . Bult in my own case, of the application of THE GALVANIC BELT AND NECKLACK. By reperious follows:

For about twenty years I had been suffering from Dyspessia. Every year the symptoms became worse, nor could obtain permanent relief from my course of medical treatment whatever. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my peteral duties, I became subject to a service Chronic Rheumism, which for year after year, caused me indescribed anguish. Farther: in the winter of 45 and 46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate shapension of my pastoral labors. My merceus system was near tharoughly prestrated, and as my Bronchitis became worse, so also did my Dyspepsis and Rheumatic affection—thus evincing that these disorders were connected with each other, through the medium of the Nervous System. In the whole pharmacopoxia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that had tried for this purpose had completely failed. At last was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency.) I determined to the supplication of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To My GREAT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. These dreadful and agonizing complaints are immediately relieved by the application of the Galvanic Brit., Nrchlack and Frum. The Belt diffuses the Electricity through the system; the Necklace has a local effect, and the Fluid acts directly upon the affected nerves. In these distressing affections the application NEVER FAILS.
